

Food Safety at its best

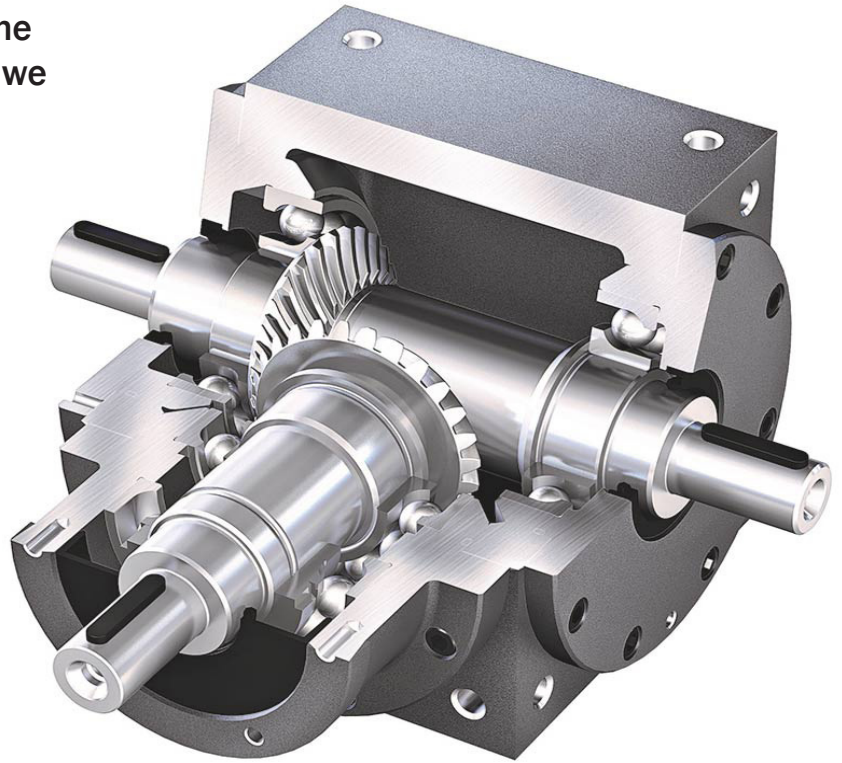

Finally, a gearbox that can rise to the challenges of food manufacturing: we present the innovative and popular

PowerGear spiral bevel gearbox

Manufactured by MS Graessner GmbH and supplied by Drive Lines Technologies.

The PowerGear is a strong and durable gearbox that can match the demanding needs of the food processing industry.

Also available in miniature.

Food safe spiral bevel gearbox coated with Duralloy-TDC (thin dense chrome)

Certified by Labor Veritas, acclaimed Zurich-based test bureau.

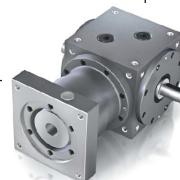

Corrosion resistant

Protects against friction

Maintenance-free

Compact design

Lifetime lubrication

Choose from different sizes and flexible configurations.

98% energy efficiency rating

Gear ratios from 1:1 to 5:1 available
